

Additional Admission Requirements

Submission Deadlines: Fall Semester: June 1, Spring Semester: November 1

The Biology Department also **requires** the following items in addition to your graduate application and transcripts. Please have the items below sent electronically (preferred) or by mail to the address below.

- Narrative statement
 - In your narrative statement, please include whether you would like to pursue a **thesis or non-thesis** version of your degree (if applicable). If you wish to do a thesis, please identify a potential faculty member you might like to work with in our department. It may be helpful to view our faculty web pages or contact potential faculty members by phone or email to discuss your interests. You could also include in the narrative statement your interests in biology and how they developed, your career goals, and how you think a degree in the Biology Department at CCSU will further your education and prepare you for your career.
- Letters of recommendation by two college instructors familiar with your ability and record in biology and the related sciences

The Biology Department also **recommends** the following item;

- [Graduate Record Examination](#) scores for the aptitude and advanced biology tests are recommended but not required.

Submit Biology Department materials only to:
