

AED's (Automatic External Defibrillators)

Central Connecticut State University is committed to the safety and well-being of not only our faculty, staff and students but to our campus visitors as well. We are a CT Department of Health designated Heart Safe Campus. CCSU has over 40 AED's on Campus with 22 of the units designated as public access. AED's are vital in providing an electrical shock to those in cardiac arrest. With bystander CPR, public access AED's, campus medical first responders and transporting EMS units, this gives the best chance of survival to those suffering from a sudden cardiac event.

In the event of an emergency please dial 911. For routine issues needing urgent attention please contact the CCSU Police Department at 860-832-2375.

For more information on the Public Access AED Program please contact the CCSU Fire Lt. at fire@ccsu.edu or 860-832-2386.
