

MEDIA STUDIES, B.A., 120 TOTAL CREDITS
DIGITAL FILMMAKING & TELEVISION PRODUCTION CONCENTRATION
Department of Communication ♦ CURRICULUM SHEET
Effective Fall 2022

DIGITAL FILMMAKING & TELEVISION PRODUCTION: This concentration focuses on independent film production and/or television production.

Students enrolled in the film production sequence (COMM 228, 328, 428 and 488) regularly conceive ideas, develop scripts and explore fictional/non-fictional characters through the production process. From originally scripted, short-filmmaking, to real-life film personal portraits, graduates of and current students in this program work in the entertainment industry, gain acceptance within film graduate programs, compete in festivals, produce media campaigns and commercials and most importantly, obtain the foundations to create compelling film-works for traditional and non-traditional distribution.

Students enrolled in the television production sequence may get entry level positions in the areas of commercial television, cable, and video production houses. You will also develop skills to work in the field of media production in public relations and organizational communication. After completing the four-course series (COMM 227, 327, 427 and 487), you will be able to work in field and studio production and pre- and post-production and produce nonfiction projects and television-related content.
