

MEDIA STUDIES, B.A., 120 TOTAL CREDITS
MULTIMEDIA PRODUCTION AND NEW TECHNOLOGIES CONCENTRATION
Department of Communication ♦ CURRICULUM SHEET
Effective Fall 2022

MULTIMEDIA PRODUCTION & NEW TECHNOLOGIES: While existing media traditions have conditioned us to train students into specialized areas (e.g., radio, film and television), the demands of the new technologies, audiences and industries, require us to train the total student: One who can communicate across multi-media platforms. This concentration aims to train students to reach, first of all, a theoretical understanding of how digital technologies have impacted all the communication contexts (interpersonal, professional, mass communication). Furthermore, students acquire the practical skills to apply those technologies in desktop publishing, digital photography, web publishing, and multimedia production. This concentration transforms the student into a total communicator who can reach audiences across media platforms.

B.A., MEDIA STUDIES CURRICULUM:

38 credits total, with 15 credits in core courses, 12 additional credits within a specified emphasis area, and at least 11 other credits of directed electives.
