Original Cohort data source is Banner Table SOBFTFT

All retention and graduation data are keyed to a student's initial school at the 3rd week of the first year; any subsequent major and degree changes in or out of this school are not reflected.

Adjusted Cohort removes students due to death or military service as allowed for graduation rate reporting to IPEDS through the sixth year. The university makes no adjustments to this cohort after year six. The adjusted cohort for most recent two years may change.

Retention rates are measured from fall semester to fall semester as of the 3rd week official census date.

Graduation rates are measured based upon degree completion between Sept. 1 and Aug. 31 of the following year.

Data source for completions through year 6 is the IPEDS Data Center; subsequent completions from Banner table SHRDGMR
