

# BUSINESS PROJECT MANAGEMENT

Undergraduate Certificate

Central to Achievement.

Central's Undergraduate Certificate in Business Project Management provides students with a comprehensive insight into foundational and advanced project management concepts essential in the rapidly evolving technical landscape. The program teaches project management principles, programming for business applications, and agile methodologies in information technology project management. Our graduates emerge with a broad understanding of core project management concepts and are equipped with practical skills that make them industry-ready to tackle challenges in diverse sectors. They are adept at employing modern tools, methodologies, and practices, which position them as valuable assets in any organization.

## Program Features

- 12-credit program
- Small class sizes
- State-of-the-art software and lab equipment
- Hands-on faculty with real-world experience
- Access to workforce development scholarship
- Financial aid available

“

The Undergraduate Certificate in Project Management is an exceptional four-course program (12 credits) designed for upskilling current employees and enhancing the competencies of current majors. This certificate equips students with a solid foundation in project management principles, programming for business applications, and agile methodologies in IT project management.

- Michael Gendron, PhD, Program Coordinator

”
