UX DESIGN

Certificate

Central's Undergraduate Certificate in UX Design prepares students for careers in user experience (UX) design and related fields through a structured, interdisciplinary curriculum. The program integrates visual design, marketing, statistics, and computer science, while providing hands-on training in user-centered design principles, research methodologies, and technical skills. This offers a clear pathway for students to advance toward a full degree in UX design or related fields, accommodating those who choose to pursue further education in this area.

Program Features

- 12-credit program
- State-of-the-art computer labs
- Hands-on research projects
- Real world experience
- Open to design majors and non-majors
- No prior UX design experience required
- Features an industry-relevant curriculum
- Builds a strong UX design portfolio
